## Springwood Gardens 2020

Springwood Gardens is a family-owned mail order nursery, specializing in breeding fancy, northern hardy, tetraploid daylilies with great color, many of which are outstanding breeders. There are 12 new introductions for 2020. The website includes pictures of each introduction under different types of weather, plus links to selected offspring if any. The colors are accurate (depending on your monitor), which is great since it is hard to describe some of the colors. New introduction pricing is a combination of a plant's proven ability to easily produce outstanding kids, garden value, how many I have available, and not wanting a couple of plants to cost as much as a mortgage payment ☺

Interested in what might be coming out in 2021-2022? I am very excited about them! See the link called possible future introductions. A few miscellaneous notes: If you have time, I invite you to check the link on my website called Daylily Names. I think you will be fascinated by some of the descriptions. Thank you so much for the nice e-mails and internet posts about the flowers you receive as well as the pictures of your gardens and seedlings. I love hearing from you. You are welcome to use any of the photos on the website without permission. As for rust, I haven't seen a spore inside or out since the fall of 2016, but as many have learned, it can pop up unexpectedly from a visitor, the wind, etc. Best wishes,

**COLLECTION AND CLUB PRICING:** \$850 for the collection (\$1060 catalog value) plus \$45 shipping. Clubs will receive at least twice catalogue value if the plants are my choice based on availability, but they will come from your wish list.

**GIFT PLANTS:** Rather than sending gift plants, my practice has been to keep my prices reasonable, send large plants, and send extra fans on larger orders since that is what most people seem to prefer. However, on orders of \$300 or more, if I can't send extra fans I will try to choose a gift plant from your wish list or you can let me decide.

**SALES INFORMATION:** Each order is important, and I personally choose and box each plant. Plants are state-inspected. Shipping is by priority mail from March 15 to June 30 (although if I have time to ship after that I will). \$12 for the first plant and \$3 for each additional plant. Check or money order should be made payable to Springwood Gardens. U.S shipments only. **Prices are for a double fan or more.** I ship large plants, although sometimes the size is weather or cultivar dependent. I promise you will be very happy with the size of your order as a whole ☺ All Springwood introductions have been grown and tested outside before selection. They are not babied or given special care. They are planted on top of a cold, windswept hill with almost no snow cover. The ground around the daylilies is covered with a couple of inches of hardwood bark for weed control. They are given at least an inch of water a week during the growing season and only rarely any fertilizer. During bloom season, nights are typically in the 60's and days in the 80's and 90's, but in making evaluations, I also watch how the flowers open when temps are in the 50's. Most of the dormants are lined out outside. The semi-evergreens are lined out in the greenhouse (where they are grown in the ground in raised beds, receiving only regular fertilizer and water and sprayed for insects as needed), enabling you to receive large, high quality, blooming size plants when it's most convenient for you in the spring. I recognize that not everyone is enamored of plants grown in greenhouses, but in our climate it's often the only way I'm able to ship before early June! Bloom occurs in April and May in the greenhouse, and it is likely you will receive a plant that has already scaped (happy to send scapes for pollen if I have them). Most buyers report first year bloom (and often rebloom) on the majority of the plants that I send, although not usually in sync with their peak bloom time. Northerners will find that their plants will re-establish more quickly if they request delivery after the soil has warmed up in their area and after hard frosts are expected. I guarantee my plants for a year – see page 6 or the order form for specifics.

**Please don't offer to re-sell any of the 2020 intros until October 2020** (when my selling/shipping season is over for the year). Dividing them in the first year not only voids the replacement guarantee, but will also make me hesitant to send you double fans of new intros in the future. Thank you for understanding ☺

## 2020 INTRODUCTIONS

**ALL THINGS MADE NEW** TET 24813 (All Things to All Men x Bluegrass Memories), 5.5" (sometimes 5"), 33" (30" some years and 36" others), 4-way branching (range of 2-5 way in a given clump), 18 buds (range of 9-27), M, Sev, fr, instant Re in MN every once in a while on some fans. Grape cranberry; icy lavender eye and edge plus ivory white; yellow to green throat. Color changes with different temperatures – sometimes many shades lighter and other times much darker - see website. A darker version of All Things to All Men (without the spotting). Fertile both ways.....\$100

**BITE OF THE APPLE** TET 22209 (Repeat the Sounding Joy x Chariot of Clouds) x (Storm Shelter x sdlg), 6", 30", 4-way branching (range of 3-5 way in a given clump), 15 buds (range of 11-21), ML, Sev, fr, Re (but not MN). Soft hot pinkish red; cranberry etched icy dark reddish pink eye and edge plus ivory sharks; yellow to green throat. Pictured on one of its best days (lighter color when hot and sunny) – see website pics. Fertile both ways but not an easy pod parent.....\$100

**BLOOD OF THE MARTYRS** TET 22914 (Soli Deo Gloria x sdlg 8912) x (Soli Deo Gloria x sdlg 18010), where the seedlings include things like Desire of Nations, Faith That Moves Mountains, Not Guilty, All Things to All Men, Storm Shelter, Jane Trimmer, Trials of Job. 6.5", 32" (with range of 28-36"; 24" in first year after planting), 4-way branching (range of 3-5, with buds near the top of the scape but no crowding), 17 buds (range of 13-21), M, Sev, EMO, fr, Re (but not MN). Black cranberry; lavender pink eye and edge plus ivory; twinkle midribs, yellow to green throat. Fertile both ways, making beautiful dark kids with great color – see link on website.....\$125

**CHANGED IN A MOMENT** TET 28413 (Bluegrass Memories x All Things to All Men), 6", 32", lovely scape with 5-way branching (range of 3-6) and 28 buds (range of 13-31), M, Sev, fr, Re (but not MN). Grape cranberry; icy lavender eye; icy lavender plus ivory edge; yellow to green throat. Color changes with different temperatures – sometimes many shades lighter and other times much darker - see website. Similar some days to All Things Made New (same parents but reversed) but larger and icier eye. Beautiful form and color with no spotting. Most of the BGM kids that bloomed were only 5" and without fancy edges, so I was thrilled to get this size and fanciness with this and All Things Made New. Fertile both ways.....\$100

**FIGHT OR FLIGHT** TET 23514 (Alpha and Omega x Flying Purple People Eater), 7.5", 32" (some years a range of 28-33", and others 27-38"), 4-way branching, 21 buds, ML, Dor, fr, about 20% instant Re in MN. Violet pink lavender; dark lavender and dark grape eye etched in dark cranberry; green throat. I love the kids out of Flying People Eater – they are very hardy and have wonderful color, open well, and never spot. I have used it to try to increase the size of my round and triangular flowers. Fertile both ways.....\$85

**FOR BETTER FOR WORSE** TET 1714 (Not Guilty x sdlg 1312) x sdlg 3412, where the seedlings include things like All Things to All Men, Gnashing of Teeth, Desire of Nations, Kingdom Without End, Faith That Moves Mountains, Trouble in Paradise – and the reason why the kids are so beautiful and diverse. 7", 26" (range of 24-29"), 4-way branching (6-way initial year), 15 buds (can be less when crowded), EM (starts early July here and still blooming end of August because of rebloom), Sev, fr, instant Re in MN ranges from 25-100% depending on the year. Flawless, unspotted rose cranberry (sometimes grape cranberry); triangular multi-lavender eye and edge plus ivory; yellow to green throat. Hardy, easy opener, gorgeous flower, but I wish it were 4-6" taller and had 5-10 more buds (don't we all<sup>⌚</sup> ), hence the name. So until the price comes down, I'm recommending it just for hybridizers. **HIGHLY RECOMMENDED AS A PARENT IF YOU WANT TO GET AN ASTONISHING NUMBER OF ABSOLUTELY AMAZING, INTERESTING, DIVERSE, SUPER FANCY FACES.** (Note: this was always an “outside” plant so I didn’t start using it in hybridizing until April 2018. Many of the kids are taller and more robust in the GH than For Better for Worse, although they haven’t yet been outside for me to assess the plant habit there). What I was especially excited about was that **IT WORKED WELL WITH ALMOST EVERYTHING I PUT IT WITH!** Most of you know I’m not a capital letter and exclamation point kind of person<sup>⌚</sup>, but wanted you to know how blown away I was throughout the season by the sheer number of beautiful faces on its kids, and even more so when I saw the offspring all pictured together – see website link. I think you will have great fun experimenting with it. Fertile both ways.....\$150

**GO THE EXTRA MILE** TET 45113 (Forty Days and Forty Nights x All Things to All Men), 5.5", 32", 4-way branching, 17 buds (range of 11-24), M, Sev, fr, Re (but not MN). Color ranges from dark lavender to violet cranberry; chalky lavender watermark and edge plus ivory; yellow to green throat. Why introduce this one since there are others around with similar looks? Because it is a great zone 4 garden flower and insisted each day I walked by that it shouldn’t be ignored<sup>⌚</sup>. Blooms are consistent, it grows fast and has lots of scapes, so it is almost always a bouquet bloomer as pictured. Fertile both ways.....\$40

**INTERCESSOR** TET 46612 (Desire of Nations x Aquas Azul), 5", 32", 4-way with 25 buds (but most scapes are 5-way with more than 25 buds), M to ML, Dor, fr, lots of instant rebloom in Minnesota ranging from 33-75% depending on the year and the plant (and rebloom scapes average 15 buds). Long bloom season because of all the rebloom. Sometimes pink lilac, and other times pink mulberry or pink grape lavender or dark grape lavender; shimmering icy gray lavender eye and edge plus ivory; yellow to green throat. Showy and the “iciest” flower in the garden. Its only shortcoming is that it does not open well in cool weather (see last website pic) so is not recommended for anyone with nights regularly in the 50’s and days in that 60’s. It blooms just fine if you have normal warm weather. Fertile both ways. A big thank you to Dan Robarts, who got my Desire of Nations and knew it just *had* to be crossed with a couple of other plants he was growing - and sent me some seeds he made from the crosses.....\$60

**MIGHTY IN BATTLE** TET 3313 (seedling 0412 x Flying Purple People Eater), where the seedling includes things like Not Guilty, Faith That Moves Mountains, Chariot of Clouds, Skin of My Teeth. 8", 40", 5-way branching, 25 buds (range of 10-35 and closer to 15 when crowded), EM, Sev, very fr, tons of MN instant Re (50-100% depending on the year). Good increaser that blooms here from July 10 through early September because of the rebloom. Pinched crispate UF – pinched petals, triangular form, sometimes twisting. Very dark cranberry grape, although it can also be cranberry merlot or dark cranberry or merlot depending on the weather; 1/3 midribs, white edge, green throat. Unspotted. Fertile both ways (and easily pod fertile in the greenhouse, which is sometimes not the case for UF's).....\$75

**OUTER DARKNESS** TET 47412 [(Storm Shelter x Teeth of Iron) x Trouble in Paradise] x Trials of Job. 5", 22" (range of 19-24"), 4-way branching, 15 buds, M, Sev, fr, Re (but not MN). Pink cranberry; merlot to black eye and edge plus silver and ivory; green throat. Some days a few shades lighter than pictured or a more triangular form - see website pics. Makes a pretty clump blooming just above the foliage. Stunning when lots of the black eyes are blooming at once. Not pod fertile as best as I can tell.....\$50

**POWER MADE PERFECT** TET 50412 [Soli Deo Gloria x (sdlg x All Things to All Men)]. 6", 28" (range of 26-30"), 3-way branching (range of 3-5), 24 buds (range of 13-35 – a bud builder), ML (and blooms into September here), Dor, fr, Re (but not MN), CMO (great when cold days or nights), EMO. Clear, saturated purple wine; icy lavender eye and edge plus ivory white; yellow to green throat. Different looks depending on the weather – eyezone can be bigger and icier and color can get darker. Thick substance; gorgeous flower. Makes huge fans outside. Fertile both ways. Always an “outside” flower so haven’t bred with it until last year. I think its kids will be great.....\$100

**STAR COMMANDER** TET 27813 [Cosmic Struggle x (sdlg x Trouble in Paradise)] x Flying Purple People Eater. 8" (range of 7-9"), 30", 3-4 way, 15 buds, M, Sev, Re,. Dark lavender pink; multi lavender eye; lavender plus ivory edge; chartreuse throat. Great substance. Fertile both ways and parent of the beautiful large, fancy future 34814.....\$75

**NOTE:** If there is something I've introduced that is not on this list that you have your heart set on, please let me know. I often have one or two of a plant available, or I might be able to take it off a display clump – or even divide up a whole clump if I get a lot of requests.

Note: Height measurements are from the ground to the top of the dead scape and do not include the buds or flower, which can add 2-5" depending on the angle.

**GUARANTEE:** Springwood Gardens' introductions are guaranteed for a year in zone 4 and higher if: they are planted well before fall frost and grown in normal garden conditions (e.g. grown in the ground rather than in pots, not in standing water, watered as needed, soil not overly compacted); bark or other mulch is put around the plants to keep the roots cool and moist (no extra winter mulching needed); plants are not divided when first received or during the first year. (Note: it's best to avoid dividing or transplanting daylilies when they are stressed by high temps or drought, and northerners report better success dividing daylilies in spring or early summer, rather than in the fall.)

**VISITORS:** Peak bloom outside is usually mid-July through mid-August; peak bloom in the greenhouse is usually mid-April to late May. The greenhouse and garden are open by appointment, and I do formal tours for groups of 8-10 or more.
