

## SHINE DOWN YOUR LIGHT

**SHINE DOWN YOUR LIGHT TET 47517 (Irreconcilable Differences x sdlg) 8” (range of 7.5-8”), 28” (range of 25-31”), 4-way branching (range of 2-5 way), 20 buds (range of 8-30), Re (but not outside in MN), ML to early Late, Sev, very fragrant. Dark lavender pink; huge pale yellow ivory throat often etched in dark plus light lavender bands; lavender plus yellow ivory ruffled double edge; green throat. Lots of different looks in terms of the size of the eye/throat and the form (round, triangular, flat, recurved) and the color of pink. Some days the flowers aren’t perfect (they can tangle or have green tipped sepals or a few spots) but most of the time the flowers are real eye catchers. It has always been an outside plant and not used in hybridizing until spring 2025, so I haven’t seen any kids.**
